Mr. Simpson pointed out it was a revelation to him when only 25 per cent of the post commanders and adjutants were represented at a recent conference called to discuss plans for furthering the work of the Legion in Philadelphia county and obtain a larger percentage of the 90,000 or 100,000 availables.

B. Simpson, department vice com-

"There has been too much dickering too much destructive criticism and too little pulling together on the part of the members of the Legion in Philadelphia county to insure success," de clared Mr. Simpson.

"It is the duty of the department officers to inculcate the spirit of cooperation and helpfulness. Such posts as the Germantown, the Walter M. Gearty, the Benjamin Franklin and the Prince Forbes posts are succeeding be-cause members are pulling together with a common purpose of building up

the Legion.

A Series of Eye Talks No.

By Joseph C. Ferguson, Jr.

Our Next Talk, Wed., July 28 T is frequently pos-

sible to remedy eye trouble by means other than the actual wearing of glasses. And it is the duty of the oculist to understand not only the eyes themselves but all other bodily conditions which affect the eyes.

Being thus fortified by medical as well as optical knowledge the oculist is pre-enimently qualified to diagnose eye troubles correctly and to prescribe correctly.

You may be sure that the oculist will not prescribe glasses unless they are absolutely necessary.

THE MOST BEAUTIFUL CAR IN AMERICA

Bigelow-Willey and Paige

An Announcement of the Seventh Anniversary of a Business Connection Which Has Served the Philadelphia Motoring Public Unusually Well

The Paige Motor Car Company and the Bigelow-Willey Motor Company have been associated in the Eastern distribution of Paige Motor Cars (and later of Paige Motor Trucks) since 1913—a connection of seven years.

Some worthy motor cars drift from one incompetent distributor to another—to the natural discomfiture of those who buy these cars.

A few unworthy motor cars by some chance form connections with competent distributors-and the inherent lack of quality in the car is an obstacle to success that is

Early we recognized the quality of the Paige. Its national sales have risen from the two hundred odd of the first year of manufacture to the more than 36,000 being built

The combination of Paige quality with Bigelow-Willey service has been successful for all the factors concerned—the motor car buyer, the Paige Company, and ourselves.

47 Percent of Paige Cars in 1919 Were Repeat Sales

The first fundamental in the purchase of a motor car is to make sure that the car itself is worthy-that it is all a motor car should be in dependability, beauty, riding comfort, speed and economy of operation.

The next step is to be sure of the quality of the service which stands back of that car-of the distributors' reliability as business men, of their willingness to go to any reasonable length to insure your satisfaction, of the intelligence and industry with which the car will be cared for after the sale is made.

47 per cent of the Paige cars we sold in 1919 went to former owners of Paige cars. 'In this fact lies proof, not only of the quality of the Paige, but also of the excellence of Bigelow-Willey service.

The success of the Paige Car and of the Bigelow-Willey Motor Company is attributable entirely to the application of common-sense business principles - first, a good car; second, the kind of service necessary to make every owner a friend instead of a potential enemy.

Our tremendous growth in the past seven years compels us to secure larger quarters. We are providing for this by erecting a new 10-story building at the corner of Broad and Vine Streets, which will be one of the finest automobile display rooms in Philadelphia.
